

5 Steps to Better Learning with Photography

Wayne L. Brillhart

Author, Photographer, Speaker

Creator of the CAMIL approach to learning

Enjoy the wit and wisdom of teacher, Title I Advisor, lecturer and analyst Wayne L. Brillhart as he describes his new methodology for advancing the learning process in the classroom. “The Mystery at the Birdfeeder” follows this methodology employing Curiosity in the title to begin the process of learning about the backyard birds. The photographs add to the reality. Remember: *Curiosity Creates Comprehension with CAMIL.*

The **CAMIL**® approach to learning:

- **C**uriosity *promotes*
 - **A**ttention *which leads to*
 - **M**otivation *which leads to*
 - **I**nvolve**m**ent *which results in*
 - **L**earning!

Recent Comments

- “The Mystery at the Birdfeeder” is the perfect addition to my nature watching classroom.” Third Grade Teacher.
“Every family, every public and school library needs a copy of this wonder full book.” President, national boys organization.

Recent Publications

The Backyard Bird Adventure Series with Rusty and Purdy employs the CAMIL methodology starting with the provoking title; then the adventure advances with Purdy, the English Setter, and sometimes her big brother Rusty seeking clues to solve the mystery. The books are 100% photographs to go with the story line. By the end of the book the reader has learned to recognize the birds in the story as the mystery is revealed. Secondary goals are also accomplished.

The Mystery at the Birdfeeder – Purdy asks the birds for help solving the mystery: Who knocked it down?

The Deer With the Purple Nose – Both Purdy and Rusty get help from the birds to find out how it happened.

Highlights
